

# Power & Foresight

CELEBRATING 15 YEARS OF SUSTAINABLE ENERGY

## KEYSTONE SOLAR BEHIND THE SCENES

### See an award winning solar farm in Pennsylvania

#### Energy Workshop and Tour

Community Energy is a leader in renewable energy development. Their Keystone Solar Project, one of the largest solar farms in Pennsylvania, is a 6 megawatt project producing approximately 7.5 million kWh of electricity annually, the equivalent of powering 950 homes or avoiding 4,200 tons of carbon dioxide each year.

#### Distinguishing Features

- \* Winner of the PV America 2013 Project of Distinction Award
- \* Industry Leading Agriculture Preservation Design
- \* Largest Customer-Driven Utility Scale Solar Project in PA
- \* Enabled by Voluntary SREC retail buyers
- \* Subject of Columbia Business School case study

As a Power & Foresight award recipient, Community Energy is highlighted for leading the renewable energy development of more than 1,000 MW of wind and solar generating facilities across the U.S. Community Energy has used a pioneering mix of utility off-take approaches, renewable energy marketing, new financing structures, development expertise, and public policy support to accelerate the deployment of renewable energy technologies at scale.

This event is being organized and sponsored by the West Penn Power Sustainable Energy Fund. The morning workshop and tour access to the solar facility will be provided by Community Energy, one of the most innovative and reliable developers of utility grade solar.

#### You Will Learn & See

The workshop will be held at The Keystone Solar Farm located in Quarryville, PA just south of Lancaster. Learn about Community Energy's solar development approach:

- An up-close, exclusive walk through the Keystone Solar farm
- The leadership role that Community Energy has played in the industry, and as a pioneer for Pennsylvania
- What did it take to build Keystone Solar at a time when no other utility-scale solar was being built in the state?
- Community Energy's proven market experience
- Key lessons learned

See the largest customer driven utility-scale solar project in Pennsylvania!

### Event Summary

Date - September 17, 2015

Location - Keystone Solar Project

1067 Lancaster Pike (at Deaver Road)

Quarryville, Pennsylvania 17566

Registration & Light Refreshments: (10:00-10:30)

Interactive Presentation (10:30-11:15)

Tour (11:15-12:00)

Working Lunch and Wrap-Up (12:00 - 12:30)

West Penn Power Sustainable Energy Fund is a 501(c)(3) nonprofit organization that invests in the deployment of clean energy technologies that benefit West Penn Power ratepayers in Pennsylvania. Investments are made to promote: the use of renewable and clean energy, energy conservation and energy efficiency, and the attraction, establishment, and retention of sustainable energy businesses.
